B.C. JUNIOR CHAMPIONSHIP

Tanraj Sohal and Jack Cheng with Maxim Doroshenko (Jason Cao was absent)

This year's B.C. Junior Championship included four players around the 2200 mark, so it was expected that these four would be the main contenders for the title. As it turned out three of them, Jack Cheng, Tanraj Sohal, and Jason Cao, tied for first with identical 4.0-1.0 records. Jason lost in the second round to John Doknjas and Jack beat Tanraj in round four, so going into the last round Jack had a perfect 4.0/4, a point ahead of Tanraj, Jason, and John and Joshua Doknjas. However, in the last round Jack succumbed to Jason's kingside attack in a Ruy Lopez while Tanraj's queen proved stronger than John's rook and bishop, setting up the three-way tie. All alone in fourth was Matthew Herdin, whose 3.5/5 was a mere half point away from first. The other 2200 in the field, Ryan Lo, had a position get away from him against Joshua Doknjas in round four and finished in a tie for fifth place. Joshua and Robin Yu tied for the U1900 prize.

Robin's sister Rinna was perfect in the Reserve Section, closed followed by Jeffrey Dawson and Neil Doknjas, Lahiru Jayaweera, and Danny Liu. The tournament was hosted by the Vancouver Chess School and organized by Maxim Doroshenko, Stephen Wright was the TD. Many thanks to Maxim for taking this on on short notice, and to all the other volunteers who helped out. Fifty-two players in total took part. <u>Standings</u>; a <u>history</u> of the B.C. Junior Championship.

A file containing the games of the Championship Section can be downloaded <u>here</u>. N.B., many of the games finished in time scrambles where neither player was recording, so often the game scores are incomplete.

20.Ra3!?± There are numerous ways to continue but this rook lift is primarily prophylactic. There is one less target on the long diagonal and the rook can assist in the defence of the kingside if needed. 20.Bb3±
20...h6 Black's kingside action is taking place at a very slow rate. 21.Nb5 f5 22.exf5 Bxf5
23.Bxf5? Even though I thought quite hard I did not really understand the position and now find the completely wrong idea. 23.Nh4! Hitting g6 right away is the most precise way to increase the advantage.

The b-pawn can be ditched as the pawn loss in only temporary. 26...Qxb4 27.Rb3 Qa5

28.Nxd6± The prepared response but not the strongest. 28.Qb1! is even stronger. 28...Qa4 29.Rb4 Qa5 30.Re2!+- The threats are Ra2 and Qxg6 and now Black is without a defence. 28...Nf6 29.Nb5 Good enough.
29.Rb5! is even better. 29...Qa2 30.Re2 Qa7 31.Nc4 e4 32.Qb1+- Black's pawns collapse.
29...Rfd8 30.d6 Kh7? 31.Bd2! The queen must be chased from attacking Re1. 31...Qa4 32.Qb1! Unpinning the Rb3 and now the plan is a sudden switch to the kingside to catch Qa4 offside. 32...Ne8

33.Rg3 33.Re4! Qa6 34.Rg3 Now g6 cannot be held. 34...Ra8 (34...Nf6 35.Ra4 Qb7 36.Qxg6+ Kg8 37.Ra7+-) 35.Re1 Kg8 36.Rxg6+- 33...e4 There was no defence but at least Black can get to the ending. 34.Rxe4 Qa1 35.Qxa1 Bxa1 36.Re7+ Ng7 37.Bc3 Bxc3 38.Rxc3 Kg8 39.g4 Restraining the knight. The key now is to prevent any activity in the technical phase of the extra pawn conversion. 39...Rbc8 40.Rcc7 Doubling on the seventh rank in normal fashion. 40...Rxc7 41.dxc7 Rd1+ 42.Kg2 Rc1 43.Na7 The cpawn decides the game. 1–0

BI-WEEKLY BAFFLER by Valer Eugen Demian

#3: White is one step away from getting a second Queen, while Black is blocking it. What is the fastest way for White to succeed?

#2 Answer:

This is a "must know" endgame. After the well-known Queen approach method 1.Qd2 Kb1 2.Qb4+ Ka1 3.Qc3+ Kb1 4.Qb3+ Black is not forced to move in front of its own pawn in order to defend it. Sacrificing the pawn gives 4...Ka1 5.Qxc2 stalemate. White has no time to bring the King over for mate. The result of this endgame is a draw.
